

Jevon Christopher Loanda

Full Stack Developer

Bogor, Indonesia

jevon.loanda@gmail.com | github.com/jevoncloanda | linkedin.com/in/jevoncl

SUMMARY

I'm an Full Stack Developer at Harita Group, where I build full-stack web applications with CodeIgniter, Node.js, Nuxt.js and MySQL. Before that I worked at Polytron, first as an intern and then as a developer, across Node.js, Go, CodeIgniter and WordPress — building APIs, fixing bugs, and closing the security issues that came out of testing.

EXPERIENCE

Harita Group · Jakarta, Indonesia Jun 2025 — Present

Full Stack Developer

Building full-stack web applications with CodeIgniter, Node.js (Express), MySQL, SSMS and Docker.

- Introduced the Git version control system to the team, leading to faster development cycles
- Introduced Docker for containerisation, simplifying application deployment and environment consistency
- Integrated Git CI/CD pipelines, including Docker

CodeIgniter · Node.js · Nuxt.js · Express · MySQL · PostgreSQL · SSMS · Docker · Git

PT Hartono Istana Teknologi (Polytron) · Jakarta, Indonesia Feb 2025 — May 2025

Full Stack Developer

Developed full-stack web applications using Node.js (Express), CodeIgniter, Go, WordPress, MySQL and Docker.

- Developed APIs and their documentation for a chatbot
- Resolved and fixed bug issues in web applications
- Resolved security threats found with Burp Suite and OWASP ZAP
- Designed and implemented UAT for web applications

Node.js · Express · CodeIgniter · Go · WordPress · MySQL · Docker

PT Hartono Istana Teknologi (Polytron) · Jakarta, Indonesia Feb 2024 — Jan 2025

Full Stack Developer Intern

Developed full-stack web applications using Node.js (Express), CodeIgniter, Go, WordPress, MySQL and Docker.

- Resolved and fixed bug issues in web applications

Node.js · Express · CodeIgniter · Go · WordPress · MySQL · Docker
